

Liquid Assets

NEW **Mentadent®** *Dual Action Mouthwash With Baking Soda and Peroxide*

Fresh, minty taste. Clean-mouth feel. Dentist-recommended baking soda and peroxide. Now these assets of Mentadent® Toothpaste that patients are talking about are available in a mouthwash.

Mentadent® Mouthwash has a dual action system that helps:

- Reduce plaque on teeth and at gumline
- Kill odor-causing germs on contact

To receive your complimentary sample of Mentadent Dual Action Mouthwash, please call the Mentadent Professional Service Center at 1-800-776-8719.

Now, Mentadent makes a splash— with baking soda and peroxide

Introducing NEW **Mentadent**[®] Dual Action Mouthwash

**The motivating difference is baking
soda and peroxide--**

ingredients that combine with every use to produce a unique
effervescent cleaning action. A Mentadent Dual Action does more to
motivate good oral hygiene habits:

- Helps reduce plaque on teeth and at gumline
- Kills the germs that cause bad breath on contact
- Delivers a fresh minty taste

Make your own splash with Mentadent!

To get your sample of Mentadent Dual Action Mouthwash,
please call the Mentadent Professional Service Center.
